Efraim Gondraneos

WEB DEVELOPER (Full-Stack)

Full-stack web Developer with hands-on experience building, testing, and supporting web applications using modern JavaScript frameworks. Strong background in REST API development, debugging, and system optimization. Experienced in delivering production-ready applications, including VPS deployment and real-world client projects.

SKILLS

- Frontend Development: React, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend & APIs: Node.js, Express.js, REST APIs, PHP (CodeIgniter)
- Databases: PostgreSQL, MySQL, MongoDB
- Tools: Git, GitHub, Postman, VS Code, WordPress
- Deployment: VPS (Ubuntu), Nginx, PM2
- Concepts: MVC Architecture, Authentication, Role-Based Access Control, API Integration, Debugging, System Design

EXPERIENCE

- Full-Stack Developer (Freelance) - Cequena Training & Consultancy (Sep 2025 – Mar 2026)
  - Developed a webinar and product listing platform for a PRC-accredited training provider
  - Designed and implemented REST APIs and database architecture for scalable content management
  - Built responsive UI for educators and learners using React and Tailwind
  - Implemented booking workflows and content management features
  - Deployed the application on VPS using Nginx and PM2
  - Tech stack: React, TypeScript, Node.js, PostgreSQL

- Full-Stack Web Developer Intern - Business Web Solutions (BWS) (Feb 2026 – Apr 2026)
  - Completed a structured full-stack development internship covering modern web technologies and real-world project workflows
  - Developed web applications using HTML, CSS, JavaScript, React, and backend technologies
  - Built and integrated RESTful APIs with database-driven features
  - Applied debugging, testing, and problem-solving techniques across multiple project modules

- Full-Stack Web Developer Intern - PhilHealth Head Office (486 hours)
  - Developed the CipherKey Ticketing System for managing internal requests and document workflows
  - Implemented file uploads, validation, and automated email notifications

- Improved internal processing efficiency by digitizing manual workflows
- Tech stack: PHP, CodeIgniter, MySQL, JavaScript, Bootstrap

- Web Developer (Freelance) - (Apr 2020 – Jun 2021)
  - Converted Figma and PSD designs into responsive, cross-browser compatible web pages
  - Optimized mobile-first layouts and improved page performance
  - Collaborated with clients to translate design requirements into functional UI
  - Tech stack: HTML, CSS, Bootstrap, JavaScript, jQuery, WordPress, PHP

PROJECTS

- Music Chords Web App
  - Built a mobile-first chord platform with search, transpose, and lineup management features
  - Designed PostgreSQL schema for scalable song organization and filtering
  - Implemented UI optimized for real-time use during live performances
  - Deployed application on VPS using Nginx and PM2
  - Tech stack: React, TypeScript, Node.js, Express, PostgreSQL

- MIHIS (Malnutrition and Immunization Health Information System)
  - Designed and developed a healthcare system to manage patient immunization and malnutrition records
  - Implemented e-vaccination cards, scheduling systems, and automated SMS/email notifications for barangay health workers
  - Tech stack: Angular, TypeScript, Node.js, Express.js, MongoDB

CERTIFICATION

Angular – The Complete Guide (2025)
- Udemy | Certificate

Ultimate JavaScript Part 1: Fundamentals
- Code with Mosh | Certificate

JavaScript Unit Testing
- Code with Mosh | Certificate

The Ultimate HTML5 & CSS3 Series: Part 3
- Code with Mosh | Certificate

Claude Code | Certificate
- Code with Mosh | Certificate

CompTIA ITF+
- Jose Rizal University | Certificate

EDUCATION

2025 **Jose Rizal University**
Bachelors of Science in Information Technology (BSIT)
